

The 7-Day Angelic Reiki Masters Workshop Singapore 24 – 31 October, 2009

Healing from the Quantum Field of Infinite Possibilities

The workshop is presented by Kevin and Christine Core, co-founder, of Angelic Reiki. Each seven-day workshop is unique, as it is channelled especially for that specific group from the Angelic Realms.

What is included?

The seven-day workshop includes every aspect of Angelic Reiki. Everything taught in the Level 1 & 2 workshops, and Level 3 & 4 Masters is covered. Additional aspects usually covered are "the etheric body; the part it plays in good health and healing", and "the joy of healing into death".

Who can attend?

Anyone with or without previous experience; just a desire to come is enough.

Never before in the history of the Earth has Angelic Energy been so easy to contact.

Come experience ...

- The energy of the most powerful Archangelic Presence that you could imagine, manifesting behind you and anchoring into your energy body the most pure, divine, simple healing symbols, which would enable you to make a permanent connection with your Soul, and that aspect of your being which is Divine.
- An initiation into the vibration of the Angelic Kingdom of Light, which would alter the molecular spin of the very atoms of which your physical body is composed, so that from that moment forward you would be able to merge with angelic energy in perfection.
- A workshop, that, through its connection with the Great White Brotherhood and the Ascended Masters, allows you to be embraced by their energy, and be welcomed into the ranks of the galactic healers of this Galaxy.
- Profound joy from being in a multi-dimensional vortex, merging energy with an Ascended Master or a Galactic Healer, to clear and balance the past lives, on this planet, of your friend, family, or patient.
- The wonderment of looking into the eyes of a fellow human being, and through eye contact alone is able to send them the most profound healing they may ever have experienced.

- How awe inspiring it is to be surrounded by your soul group in order for you to channel your divine presence to a patient, and for that patient to recognize their own divine origins?
- How empowering it is to integrate the true origins of Reiki? To understand what the symbols truly are, and to be initiated into their highest vibration of galactic and universal levels?
- The radiant splendour of having the energy of 30 Archangels manifests before you, and give you probably the most profound initiation with their combined energies constituting the sum total of the vibration of the Angelic Kingdom of Light as we experience it in consciousness.

And receive attunements...

- In the Angelic Reiki System, like all other Reiki systems, there are four (4) attunements leading up to complete mastery of the system. However, in this system, there are two angelic attunements which allow the student to be energetically initiated into the angelic vibration of the divine archetypes. These archetypes are the basis on which consciousness exists. To anchor these archetypes into a patient through healing can cause the transformational shift in consciousness of that patient, causing seemingly miraculous physical effects.
- In all other forms of Reiki, the energy attunements and activations in consciousness are done through the Master/Teacher. With Angelic Reiki, the Master Teacher does NOT do the attunements. An Angelic presence stands behind each person to be initiated and the attunements come through that Angel. The Angelic Kingdom manifests their energy around each student and anchors the symbols into the appropriate charkas. The symbols and the initiation are received by the student at a pure Divine vibration.
- Although symbols will be taught in the workshop, in order to practice Angelic Reiki, symbols and hand positions are NOT needed to be remembered.

Learn this entire healing modality in just 7 amazing days.

During these 7 days you will . . .

- Receive up to 6 individual healing sessions;
- Be taught the Death and Dying process so you can help a friend, relative or client go through this process; and
- Be taught about Kundalini whereby you can avail yourself to this energy.
- Receive an initiation into the virtues of 30 Archangels.
- Receive 6 attunements. These attunements actually change the molecular spin of our physical vehicle and consciousness enabling the initiate to merge more completely with Angelic energy.
- Complete Standard Levels 1 & 2
- Complete Master Levels 3 & 4
- Receive a Practitioner's Certificate; and
- Be able to practice this modality professionally, and teach this incredible healing modality which is connected to the energy of Atlantis.

In this workshop, we teach everything that is taught in the standard 1 and 2 workshop, and the 3 and 4 Master Workshop. However, because we are holding the energy over an intense 7 day period, you have the opportunity to receive the

latest information that Christine and Kevin are working with at any one time.

NEW INFORMATION FOR 2009 CLASSES.

Each year, we add new information to the syllabus of the seven-day Master class, which is not part of the basic workshop.

- 1) For 2009, we will be sharing the information and healing techniques that we have been working with in *Kevin's process in healing his cancer*. All of this will be based on our own personal experiences and will be valuable information that practitioners and teachers can share.
- 2) When Angelic Reiki was first channelled Archangel Metatron informed us that it was "The Healing System for Our Time". Through a simple understanding of modern science in the field of **Quantum Physics**, we now understand the truth of this statement. We will share with you this amazing truth and show how it deepens our healing potential.
- 3) **Consciousness.** In our reality we consider time as linear. This is not true. We believe we live in a world composed of beginnings and endings but this is the illusion of living on this plane of consciousness. The greater reality embraces the truth that all manifestation is spherical. You are living every moment of this lifetime now. This is not a platitude. In this workshop we will show you how it works and how to heal your patients and yourself as a spherical consciousness. **This information has not been revealed for centuries because of its power. We are fortunate that this system has been chosen by Spirit to break through the veil of illusion we have all been living under for the last 2,000 years.**
- 4) **Pain and Suffering.** In this workshop we will explore the nature of pain and suffering and why we create it. Kevin will explain why the 2 ½ years he has been in constant pain with mouth and throat cancer has been the most joyous time of his life. These insights will allow you to view life as it is viewed by Spirit and embrace all pain and suffering as part of the great game we call LIFE.
- 5) "Never before has Christine and I felt transformational energies that we are contacting now".
- 6) **Death and Dying.** Supporting and healing someone through a death in process can be a most profound, uplifting and joyous experience. It is only ignorance and fear that have made it otherwise. After Kevin's experience with cancer in the summer of 2006, he has a unique insight into the process of leaving the physical body. In this workshop, we will go through the process that occurs as one separates from the physical body. This will enable you to help a friend, a relative, or a client go through this process. It is possible to heal a person through and after death, and it is one of the most profound services that we can offer to another.
- 7) **Etheric Body.** Most of us have heard this term, but do not understand its implications. It is an absolute truth that a person who does not maintain a healthy etheric body will succumb to illness. Also, light workers who constantly are calling in energy do not understand that an etheric body flooded with this energy can cause problems. In this workshop, we will highlight those problems and show you how to deal with them.

**Anyone who chooses to attend these workshops
can be assured of an amazing experience!**

In Atlantean times, we knew we were Divine, and lived as such.
Angelic Reiki is one of the main triggers here on Earth today
for the reawakening of this remembrance.

What People Are Saying About Angelic Reiki:

Dear Christine and Kevin. I tried it to express my sense of gratitude to Christine at the Sedona Angelic Reiki workshop, but all I could do was to tear up. I just want both of you to know how much I honour the space that you hold and the great commitment I know it takes to do this work. It meets my needs for validation, a sense of hope, joy and deep connection. There was a sense of homecoming that has continued to resonate and sustain me. Maria.

Dear Christine and Kevin. I feel honoured and blessed to have taken part in the Angelic Reiki workshop. Your integrated healing system incorporates numerous levels of lightbody activations which are overlaid by the Ascended Masters, the Archangels and many, many other energies which merge into one to create by far the most comprehensive, powerful and pure healing vibration that I have ever experienced. Aysen.

Angelic Reiki is above and beyond any healing modality I have studied or practised. It is totally unique in its purity of content and divine presentation. Thank you for gifting to me, all your students, this world, and the entire universe and galactic communities the most subtle yet profound art of healing on all levels. Angelic Reiki will bring all that is needed for humankind's next step forward in this dance of life. Patricia.

This workshop has most of the elements I have been looking for much of my life. To say it has been transformational doesn't even begin to give it the proper words. I have learnt and grown so much. Sandy.

Amazing. It is not an exaggeration to call the workshop life changing. The energy is powerful, beautiful, warm and gentle, just as you'd expect an angel to be. The material covered is fascinating. Kevin and Christine are mesmerising, not to mention stand-up comedians for spirit. Their love of their work and each other is admirable and inspiring. Jeanette.
