### **Message from Christine about the Update Class:**

I have just finished an Update class in California and the UK and they were wonderful experiences with new information coming through for all of us and Angelic Reiki Updates are always very special.

The week end will include:-

**Quantum Physics.** How a simple knowledge of Quantum physics now demonstrates Archangel Metatron's statement that Angelic Reiki is "**The Healing for Our Time**". Also how this knowledge helps us take healing to a new level. It helps us understand what is meant by "The NON DOING space" for healing and attunements, and how Angelic Reiki works.

### **Attunements.**

We will do at least 2 attunements. Re experiencing the attunements is always an amazing gift. Each time they "attune" our vibration and consciousness closer and closer to that of the Angelic Realms. Every attunement is as if it was the first time, as in fact it is the first time at your present level of consciousness. Everyone is a great blessing.

### **The healer/teacher as the overlighting consciousness.**

This is a very important aspect for practitioners and teachers alike and is one of the fundamental principles that make Angelic Reiki what it is. What principals are at play? What part do you really play? An essential understanding of what “holding the space” means; the esoteric science behind it, and how to maximize the use of this knowledge.

### **Spherical healing.**

We first taught this in the Sedona update 2008. It is based on the Merkabah and we will cover some essentials of this. It goes one step beyond multidimensional healing.

**One new healings** that came in for me whilst doing healing for Kevin. Earth prana healing through the Angelic vortex and healing for the Deva of physical bodies. The workshop I have just finished in the US was the first time that I have taught the healing with the deva of our bodies and we were all amazed at the healing and many profoundly touched by their connection with their deva - an ancient wise companion.

### **Healing exchanges experiencing the new information.**

It is always lovely to receive a healing.

### **“Disease” what is it? Where does it come from? Why do we get ill?**

Karmic, planetary, solar and cosmic causes.

Hereditary, DNA, Miasmatic, mental and emotional body.

Environmental, nutritional, and life style.

What is Cancer?

An understanding of this helps us put each situation in context supporting ourselves and our clients.

### **The Etheric Body; the vital part it plays in healing and health.**

### **Above all a opportunity to ask questions.**

I will be open to any question that you have. It is always a wonderful opportunity to gain a deeper understanding.

**Everyone... welcome... welcome.**
