Physicians report about a special way of healing

An extraordinary series of lectures will be held throughout the USA and Canada in April and May 2010. Medical specialists from around the world will present lectures about a free, special way of healing that is available for everyone. These specialists are members of the Medical Scientific Group (MWF), a part of the Bruno Groening Circle of Friends. They document and verify these healings and voluntarily present this information through worldwide lectures. A compilation of more than 200 healing reports can be found on the web site: www.bruno-groening.org/english/ under the link Healings.

Two free lectures will be presented by Dr. Matthias Knoeringer, MD, Germany

October 2, 2010 – 5:00 pm

October 3, 2010 – 3.00 pm

Concourse Level 3, Suntec Singapore

Workshop Area

During these lectures physicians will speak about people who have experienced healing from severe, chronic, and even so called “incurable” diseases. Medical documents will be presented and the experts will explain about a superior healing power that has been widely forgotten in modern medicine. The teachings of Bruno Groening (1906-1959), who became well known in the fifties due to extraordinary healings, are the basis for these lectures. Bruno Groening said time and again: “There is no incurable – God is the greatest physician”. He spoke about a higher power that he called the healing stream. This power is abundantly available for everyone. The knowledge of how to benefit from this power is given freely to individuals through the worldwide, non-profit, volunteer based organization of the Bruno Groening Circle of Friends.

All events are free and open to the public. Donations are appreciated.
