

# Domancic Method of Bioenergy Therapy

Unique Bioenergy Healing Event - First Launch in Singapore!

The Domancic Method of Bioenergy Therapy ([www.giftofbioenergy.com](http://www.giftofbioenergy.com)) was created over 30 years ago by Zdenko Domancic, the pre-eminent bioenergy healer in Europe.

Hidden from the attention of the western media for decades, his method being practiced at the impressive Domancic Bioenergy Clinic in Slovenia (the largest clinic of its kind in the world) is a phenomenon of documented and indisputable healing success that has helped more than a million people. A serious and non-invasive treatment, this method provides the safest way of promoting healing - by using life itself.

This method combines simple and gentle techniques in specific proven protocols to help all health conditions ranging from arthritis, diabetes and Parkinson's to a simple headache or sciatica (*pain afflicting the back, hip, and outer side of the leg, caused by pressure on the sciatic nerve*). It has helped children overcome stuttering and asthma and an Olympic medalist play again after a disabling sports injury. It has diminished a mother's varicose vein, a husband's hernia, and has given stroke victims and MS (*multiple sclerosis*) patients new possibilities in life. It is the key - the missing piece of the healing puzzle!

A Special Healing Event using this healing method is made available in Singapore for the first time in **August 2009** by visiting Domancic Therapists, Qiming and Tanja from the UK.

## How the 5-day Healing Event Works.

The Bioenergy Therapy is practiced in a group environment, which gives stronger and effective results.

In each separate group, two (2) therapists along with participants make up the group. Each therapist will work on an individual within the group setting. As a participant, you will receive one 15 - 20 minutes individual treatment per day during the group session. The time you spend in the group observing is also part of the healing process, so the longer you can participate in the session, the better it is for your health and this also benefits others in the group.

Since bioenergy healing is the transmitting of healthy information at a vibratory plane, each treatment reinforces and fortifies this new information of health at a cellular level, creates the habit (cell memory) of healing instead of one of illness. With every day of therapy, your immune system is boosted more and more, thereby giving you renewed health.

**Token of Appreciation:** Donations are accepted on the last day. Blessings and Thank You for your generosity.
