

START OF SHARING

Shortly after I had learnt AR basic in Mar 2010, I realised that my newly arrived Philippine maid has a sad look about her. She is a Catholic. So I asked her whether she would like a healing by the angels. I prepared the space around us and followed the required procedure. I asked for Arch-angel (AA) Michael and AA Raphael to guide the healing. I was shown an image of a farmer's back in straw rain poncho, and a straw hat with a pointed top. I was also shown a little girl aged 8 to 10 years old standing beside the farmer . I felt that she was the young girl, and I asked my maid what happened to her when she was 8 - 10 years old.

She told me that her father used to be a farmer and, the farmer of the farm next to theirs had threatened to kill her father over some water dispute. She used be to very frightened because of this , and she and her sister would always follow her father to the farm, not leaving her father alone whenever he left the house. I gave her unconditional love, and regressed to the time of the event when she was 8-10 years old. I asked the AA to send unconditional love to her father and her at that time. I also asked the AAs to assure her and her father that they were protected and safe at that time.

I tested her with the pendulum, and she was alright in her sub-conscious level. She sleeps better nowadays. Many thanks to the AAs and angels. [Not forgetting to thank Cynthia too for being such a dedicated teacher and facilitator.](#)
