Since early adulthood I knew that I wanted to be a holistic healer. How did I know? I can't really answer that. I just knew.

This "feeling" or "knowing" grew stronger as I learnt one healing method after another, over many years. None, however, gave me the sense that it was totally right for me. Then I came across 2 healing therapies, one immediately following the other, which together form the corner stone of my healing work. I believe I was guided by the Divine to walk this path. They were *Angelic Reiki* and *Theta Healing*.

Angelic Reiki is an internationally renowned healing system that is profound, yet gentle and safe. It is non-denominational. Through the Angelic Kingdom's connection to our Soul energy, powerful healing takes place. Healing occurs on the physical, emotional, mental and spiritual levels and because of this, Angelic Reiki balances and heals the whole body and not just deals with the symptoms.

For years I had been balancing my corporate existence with my passion for healing work. Opportunity finally presented itself after I received a ticking off by Lord Lanto*. I then left the corporate world and started my healing work.

More often than not, I intuitively get messages from the Angels and my client's inner self during my healing practise of Angelic Reiki. I share with my clients what they are meant to know. Sometimes, these make no sense to me but my clients understand. All information during the healing session is confidential and I do not share these with others. For training purposes, client's permission is obtained before sharing. No names are mentioned.

All therapies work in their own ways. Although working with these therapies has given me wonderful experiences and insights, I've decided to devote my time and energy to Angelic Reiki and Theta Healing for the present time.

When Christine Core (the co-founder of Angelic Reiki) was in Singapore in October 2009, I went through an intensive 7-day refresher workshop with her. In the workshop, she told us that there are changes/updates to the practise of Angelic Reiki with the information coming from Kevin Core (the late co-founder of Angelic Reiki) and the Angelic Realm. This showed us that even healing therapies undergo changes/improvements from time to time as the world changes – the frequency changes, the human bodies change with the new environment and their newly found enlightenment, etc.

For Singapore, Christine Core has provided a policy of shared support with a team of master teachers /practitioners to provide this service. I am a member of this team.

We provide “technical” help for Angelic Reiki practitioners. We aim to have as many Angelic Reiki practitioners as there are homes in Singapore.

With much love,

Anthony

* Ascended Master Lord Lanto came to me through a gifted teacher and channeller, Suzanna Axisa. He said that I am a gifted healer but I was not honouring my gifts and it's time to start the next phase of my soul purpose in this life time.
