Reconnect to Shamballa!

The 13 dimensions of creation and 13 attunements to the Energy of the Unconditional Love of each dimension.

Shamballa is the multi-dimensions element of who we are. It enables people's consciousness not only to become empowered, not only to recognise their Divinity, but to recognise their commonality, to become linked to the Whole. It repairs the damaged structure of the web. It weaves people's consciouness back into the whole. It aligns them, through the grace of the Seraphim and the Cherubim, to come back into the Divine and all of Mankind and all of the Higher Spiritual powers that exist.
